The Climate Registry

Who We Are

- The Climate Registry is a non-profit organization governed by states, provinces and tribes in North America
- The Registry is a policy neutral, non-advocacy organization
- The Registry is a membership organization with over 430 members from business, government, NGOs and academia

The Climate Registry

What We Do

- Help organizations measure, manage and disclose their carbon footprints
- Maintain a GHG emissions registry
- Provide expert technical support, training, tools, and resources at a relatively low cost
- Ensure members receive informative and timely policy updates
- Create a community of members to share best practices
- Recognize leadership in GHG reporting and reductions

The Climate Registry

Staying ahead of the curve

The Registry...

- Is on the international Carbon Disclosure Standards Board
- Is partnering with iCET to develop a China registry
- Has served as a resource on GHG reporting to Israel, Brazil, Mexico, among others
- Is an accredited NGO to the United Nations Framework Convention on Climate Change (UNFCCC)
- Worked with the World Resources Institute (WRI) to develop a Scope 3 reporting standard

A Community of Leaders

The Climate Registry

Join us!

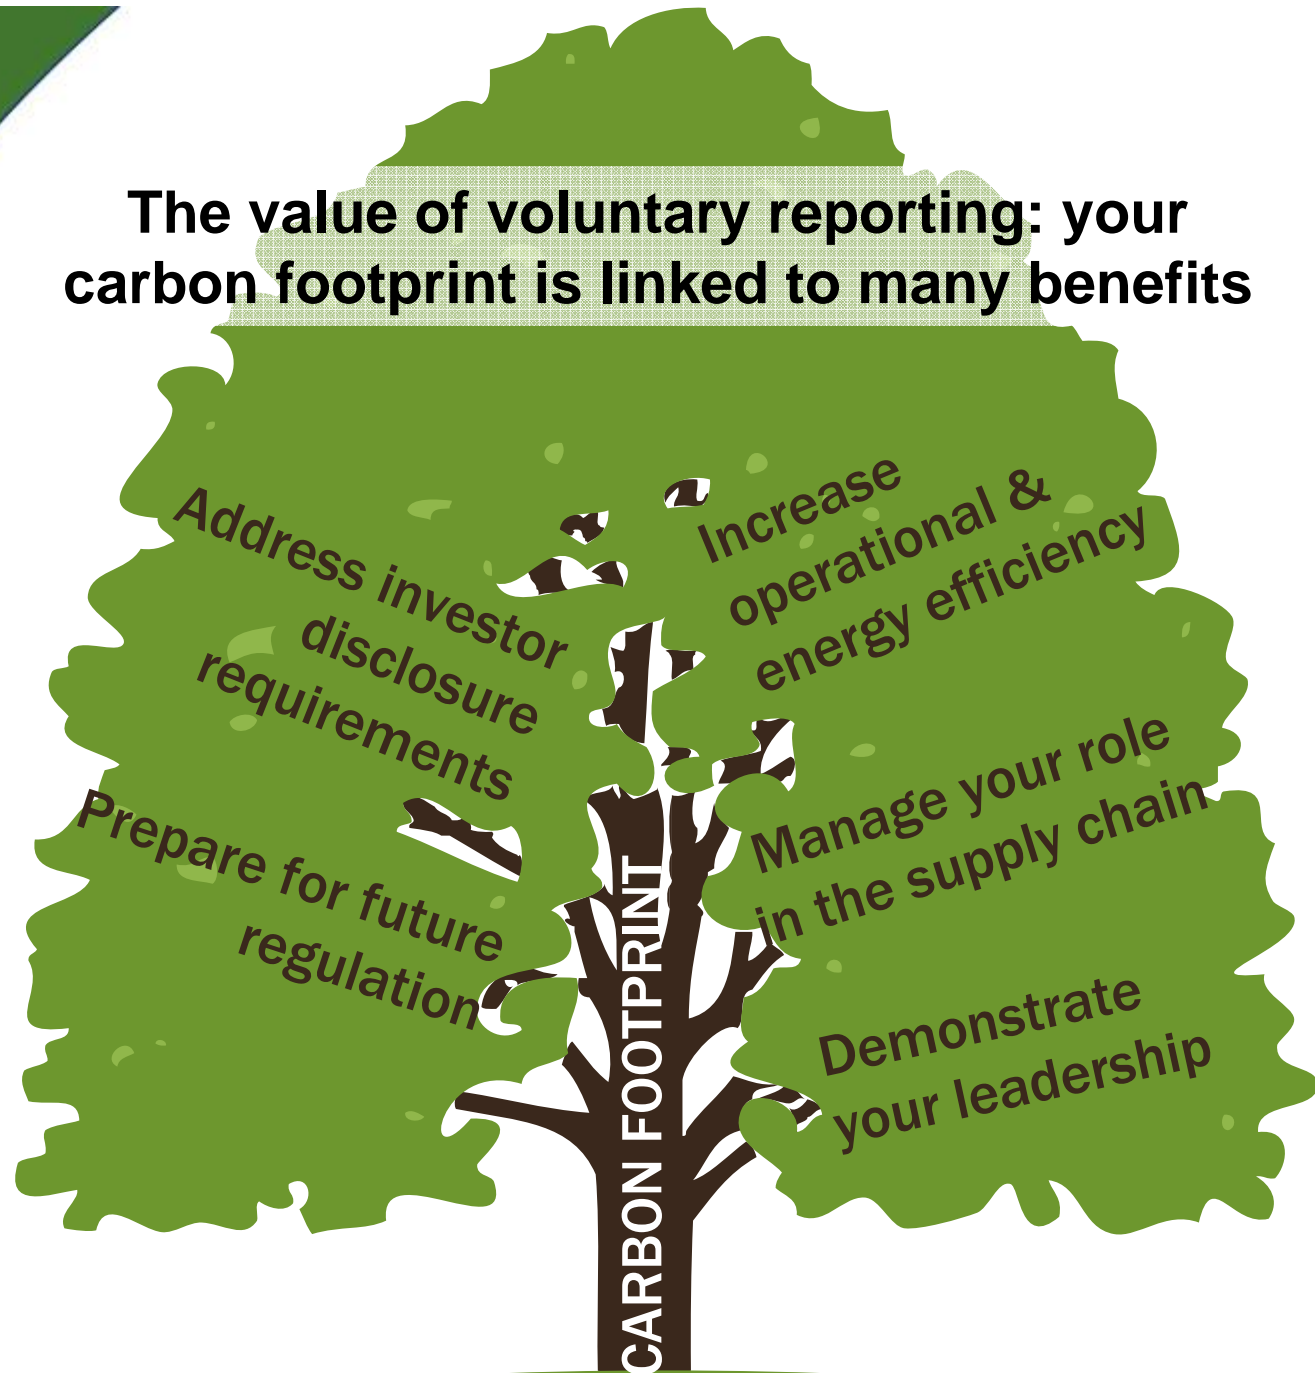

- **Regional climate policy forums**
 - Seattle, March 10, 2011
- **Members-only workshops**
 - Seattle, March 11, 2011
- **User Groups**

The Climate Registry

The value of voluntary reporting: your carbon footprint is linked to many benefits

The Climate Registry

How The Climate Registry can help you

- We provide tools, resources and technical assistance to measure and report your emissions
 - Technical help desk
 - Webinars and training
 - New software tool—CRIS 3.0
- We and our Board members provide major policy updates to keep you informed
- We help you manage your risk associated with carbon
- We recognize your leadership

Climate Registered™

Climate Registered™

Climate Registered™

Climate Registered™

The Climate Registry

**Flexible
membership
options to
suit business
needs**

Platinum

Reduce by 20%,
maintain reduction

Gold

Reduce your emissions
by 5%, retain status for 3
years

Silver

Publish a carbon management plan
and reduction goal, demonstrate
best practices

Climate Registered™

Report your complete North American, third party
verified carbon footprint (Scope 1 + Scope 2
emissions are required, Scope 3 and global
emissions are optional)

Basic Membership

Build capability and access Registry resources
without having to verify or report

The Climate Registry

The Climate Registry

We are a one stop shop for carbon resources and support

The Climate Pages
directory

Do you need a credible and pre-screened carbon expert to help you
with your inventory, verification, or sustainability planning?

See www.theclimatepages.org

Our partners include:

The Greenhouse Gas Management Institute (GHGMI) provides online training courses on GHG accounting and verification, including the .
the basics of reporting to The Registry.
