

The Climate Registry

Founding Reporters

As of May 1, 2008

1. Wolverine Power Cooperative

Cadillac, MI

www.wpsci.com

Joined the Registry on: 9/20/2007

Wolverine Power Cooperative (WPC) is a not-for profit, member-owned generation and transmission electric cooperative based in Cadillac, Michigan. Wolverine is owned by and supplies wholesale electric power to five member cooperatives and provides with a competitive and reliable power supply and support services.

2. Cormetech, Inc.

Durham, NC

www.cormetech.com

Joined the Registry on: 10/3/2007

Cormetech manufactures catalysts for selective catalytic reduction (SCR) control systems used to control NOx from large boilers such as those at coal-fired power plants. To date, Cormetech has supplied services and delivered operating catalysts worldwide for over 800 SCR systems totaling over 100,000 MW.

3. Salt River Project

Phoenix, AZ

www.srpnet.com

Joined the Registry on: 10/16/2007

The Salt River Project (SRP) provides electricity to about 920,000 retail customers in the greater Phoenix Arizona metropolitan area. It operates or participates in 11 major power plants and numerous other generating stations, including thermal, nuclear, natural gas and hydroelectric sources.

4. Arizona Public Service Company

Phoenix, AZ

www.aps.com

Joined the Registry on: 10/25/2007

Arizona Public Service Company (APS) is the largest electric utility in Arizona. With 4,000 MW of generating capacity, APS serves more than one million customers in 11 of the state's 15 counties. APS operates several power plants which include nuclear reactors, coal and natural gas-fired plants and solar resources.

5. Appliance Recycling Centers of America

Minneapolis, MN

www.arcainc.com

Joined the Registry on: 11/7/2007

ARCA is one of the nation's largest recyclers of major household appliances for the energy conservation programs of electric utilities. Since 1975, ARCA has managed millions of refrigerators, ranges, washers, dryers and other major household appliances for its customers. Leveraging the company's 28 years of experience in managing returned products that can't be handled through its business partners' normal distribution channels, ARCA has developed the infrastructure necessary to become the nation's premier provider of fully integrated reverse logistics services.

6. National Grid

Waltham, MA

www.nationalgridus.com

Joined the Registry on: 11/7/2007

National Grid is a wholly owned subsidiary of National Grid, an international, London-based company. Their core business is the delivery of electricity and natural gas. In addition, their subsidiary, National Grid Wireless, provides telecommunications infrastructure and services. National Grid has five local distribution companies that serve approximately 3.4 million customers across 29,000 square miles in New York, Massachusetts, Rhode Island, and New Hampshire. Their electricity distribution network includes 72,000 miles of lines.

7. ETC Group, LLC

Salt Lake City, UT

www.etcgrp.com

Joined the Registry on: 11/12/2007

ETC Group, LLC is dedicated to improving the energy efficiency of commercial and industrial businesses and to reducing the impact of energy use on the environment through engineering, analysis, education and advocacy. Services include commissioning and optimization of energy systems, technical energy audits and analysis, industrial systems analysis, measurement and monitoring, new construction design assistance, quality assurance and M&V for performance contracting, energy efficiency policy and program support and advocacy and education.

8. Worldwide Carbon, Inc.

Nicolet, Québec

www.worldwidecarbon.com

Joined the Registry on: 11/12/2007

Worldwide Carbon, Inc. (WWC) is a carbon aggregator specialized in carbon offset credits from biological sinks and biomass-altering processes. WWC maintains a low-risk portfolio of carbon offsets for the benefit of its customers. WWC is a Canada-based company whose business plan is to achieve a balanced coast-to-coast carbon pool to assist Canadian industries in hedging their carbon risks as they tackle their carbon challenges.

9. State of Utah Executive Branch

Salt Lake City, UT

www.utah.gov/government/executive.html

Joined the Registry on: 11/14/2007

Utah is the first U.S. state to commit to reporting GHG emissions for the entire executive branch, which includes departments of state government from the state Tax Commission to the Department of Commerce. Utah is known for its geological diversity ranging from mountains to river valleys to stony deserts. The state is a center of transportation, information technology and research, government services and mining as well as a major tourist destination for outdoor recreation.

10. PPG Industries, Inc.

Allison Park, PA

www.ppg.com

Joined the Registry on: 11/26/2007

PPG Industries is a leader in its markets; is a streamlined, efficient manufacturer; and operates on the leading edge of new technologies and solutions. It is our vision to become the world's leading coatings and specialty products and services company, serving customers in construction, consumer products, industrial and transportation markets and aftermarkets. PPG has manufacturing facilities and equity affiliates in more than 20 countries around the globe.

11. The U.S. Postal Service

Washington, DC

www.usps.com

Joined the Registry on: 11/29/2007

The United States Postal Service (USPS) is an independent establishment of the executive branch of the United States government responsible for providing postal service in the U.S. The USPS has approximately 700,000 employees at 35,000 facilities and a fleet of 200,000 vehicles.

12. Salt Lake City Corporation

Salt Lake City, UT

www.ci.slc.ut.us

Joined the Registry on: 11/30/2007

Salt Lake City is the capital and the most populous city of the U.S. state of Utah, with a population of over 170,000. The city has developed a strong outdoor recreation tourism industry, is the industrial banking center of the U.S, and served as host to the 2002 Winter Olympics.

13. Innovative Bio-Technologies, LLC

Stanley, WI

www.innovativebiotechnologies.com

Joined the Registry on: 12/3/2007

Innovative Bio-Technologies primary initiative is to produce bio-fuel, steam, and/or electricity using biomass or waste streams as the fuel source by implementing a reactor/biomass co-generator. Through direct combustion, the co-generator would burn excess biomass produced onsite to generate the steam and electricity used for on-site production. This will substantially reduce and/or eliminate gas and electrical consumption resulting in a positive environmental and financial impact, sending out surplus renewable energy to the electrical grid.

14. PG&E

San Francisco, CA

www.pge.com

Joined the Registry on: 12/5/2007

Pacific Gas and Electric Company, incorporated in California in 1905, is one of the largest combination natural gas and electric utilities in the United States. Based in San Francisco, the company is a subsidiary of PG&E Corporation. There are approximately 20,000 employees who carry out Pacific Gas and Electric Company's primary business—the transmission and delivery of energy. The company provides natural gas and electric service to approximately 15 million people throughout a 70,000-square-mile service area in northern and central California.

15. Great River Energy

Elk River, MN

www.greatriverenergy.com

Joined the Registry on: 12/7/2007

Great River Energy of Elk River, Minnesota, is the second largest wholesale electric power supplier in the state and the fifth largest generation and transmission (G&T) cooperative in the U.S. in terms of assets. We provide wholesale power to 28 distribution cooperatives in Minnesota and Wisconsin. Those member cooperatives distribute electricity to approximately 600,000 homes, businesses and farms.

16. Kennecott Land Company

Murray, UT

www.kennecottland.com

Joined the Registry on: 12/12/2007

Kennecott Land exists to build enduring communities on Salt Lake Valley's West Bench.

17. SWCA

Salt Lake City, UT

www.swca.com

Joined the Registry on: 12/17/2007

SWCA is one of the largest environmental consulting companies with a focus solely on environmental consulting. Our employee-owned company of cultural and natural resource experts and planners works for clients in both the public and private sectors.

18. Tropical Salvage, Inc.

Portland, OR

www.tropicalsalvage.com

Joined the Registry on: 12/17/2007

Tropical Salvage manufactures furniture pieces crafted from salvaged and reclaimed tropical hardwoods. Tropical Salvage acquires wood from deconstructed houses, buildings and bridges, wild-growth trees from rivers and lakes, trees felled by floods and landslides and, trees mined from beneath the ground, where for centuries caches of large, species-diverse trees have laid buried by the consequences of volcanic eruptions.

19. Trihydro Corporation

Laramie, WY

www.trihydro.com/public

Joined the Registry on: 12/18/2007

Trihydro provides high-quality engineering, environmental, and management services that result in objective-oriented solutions. We define success by our client's satisfaction and achieve success through the talent, responsiveness, and innovation of our employees.

20. Kennecott Utah Copper

Magna, UT

www.kennecott.com

Joined the Registry on: 12/18/2007

Since the original Utah Copper Company began mining the low-grade copper ore in Bingham Canyon, the mine has become a huge open-pit that has produced more copper than any mine in the world, is one of the engineering marvels of the world, and is more than ¾ of a mile deep and more than 2 ¾ miles wide at the top. Kennecott Utah Copper's Mission is "to maximize the long-term value of the resources under our stewardship," supported by efforts in sustainable development: economic prosperity, social well-being, environmental stewardship, and governance, which includes the management systems and processes that enable us to accomplish our goals in these areas.

21. Alliant Environmental, LLC

Magnolia, TX

www.alliantenv.com

Joined the Registry on: 12/18/2007

Alliant Environmental, LLC is a full service environmental engineering and consulting company and was founded with the belief that there is a better way of providing environmental services.

22. City of Austin, Texas

Austin, TX

www.ci.austin.tx.us

Joined the Registry on: 12/19/2007

Austin is the capital of Texas, the 4th largest city in the state, and the 16th most populous city in the nation. The city has a population of 750,000 and comprises nearly 300 square miles. In addition to housing state, county, and municipal government, Austin is home to strong technology and defense industry sectors, as well as a large network of independent, locally-owned firms and organizations. The local economy is buoyed by numerous colleges and universities, including The University of Texas at Austin.

The city of Austin is unique in that it owns and operates its electric utility. Austin Energy is the nation's 9th largest municipally-owned utility, serving over 388,000 customers. Austin Energy powers the capital city through a diverse generation mix, consisting of nuclear, coal, natural gas, and renewable energy sources. Total generation is just under 2,400 megawatts (MW) with nearly 300 MW of renewable energy purchases annually. Austin Energy has the top performing renewable energy program in the nation, the nation's first and largest green building program, and is home to one of the nation's most comprehensive residential and commercial energy efficiency programs.

23. North Carolina Department of Environment and Natural Resources

Raleigh, NC

www.enr.state.nc.us

Joined the Registry on: 12/20/2007

The N.C. Department of Environment and Natural Resources (DENR) is the lead stewardship agency for the preservation and protection of North Carolina's outstanding natural resources. The organization, which has offices from the mountains to the coast, administers regulatory programs designed to protect air quality, water quality, and the public's health. DENR also offers technical assistance to businesses, farmers, local governments, and the public and encourages responsible behavior with respect to the environment through education programs provided at DENR facilities and through the state's school system.

24. Bentley Prince Street

City of Industry, CA

www.bentleyprincestreet.com

Joined the Registry on: 12/20/2007

Based in Los Angeles County, California, Bentley Prince Street is a leading manufacturer of floor coverings for corporate, healthcare, hospitality, institutional, residential and retail interiors. All Bentley Prince Street brands are defined by leadership in product design, style and customer service. Bentley Prince Street offers classic styling and imaginative textures in a wide variety of backing options. Bentley Prince Street is a part of Interface, Inc., a global provider of floor coverings and textiles for commercial interiors.

25. The City of Wilmington, Delaware

Wilmington, DE

www.ci.wilmington.de.us

Joined the Registry on: 12/21/2007

The City of Wilmington, like most eastern cities, has been evolving for over 350 years. After periods of Swedish (1638), then Dutch (1655), then British (1664) colonization, the area stabilized under British rule (with Quaker influence) and was granted a borough charter in 1739 by the King of England which changed the name from Willington (after Thomas Willing, the first "developer" of the land who organized the area in a grid pattern like Philadelphia) to Wilmington, presumably after Spencer Compton, Earl of Wilmington, a favorite of the King. From the granting of the charter until the Revolution, the town developed steadily into a prosperous business and residential community. During the Revolution, its milling industries, geographic location, key leaders and resources made Wilmington particularly strategic.

26. USANA Health Sciences

Salt Lake City, UT

www.usana.com/dotCom/index.jsp

Joined the Registry on: 12/21/2007

USANA Health Sciences mission is to develop and provide the highest quality, science based health products, distributed internationally through network marketing, and create a rewarding financial opportunity for their Independent Associates, shareholders and employees.

27. EcoSecurities

Claremont, CA

www.ecosecurities.com

Joined the Registry on: 12/21/2007

EcoSecurities structures and guides greenhouse gas emission reduction projects from beginning to end, working with both project developers and buyers of emission reduction credits. EcoSecurities works with companies in developing and industrializing countries to create emission reduction credits from projects that reduce emissions of greenhouse gases. EcoSecurities has experience with projects in a wide range of sectors, including renewable energy, agriculture and urban waste management, industrial efficiency, and forestry.

28. City of Seattle, Washington

Seattle, WA

www.seattle.gov

Joined the Registry on: 12/21/2007

Seattle is a coastal port city and the largest city in the Pacific Northwest region of the United States. It is located in the Puget Sound near Lake Washington, about 96 miles south of Canada.

29. City of Roseville, California

Roseville, CA

www.roseville.ca.us

Joined the Registry on: 12/24/2007

Roseville is a progressive city with its eye on the future, but all the while retains and celebrates its rich historical railroad roots. Located in Placer County along the eastern edge of the Sacramento Valley at the base of the Sierra Nevada foothills, Roseville is a mere 16 miles from Sacramento, the state capital. Typical of other California cities, Roseville's climate ranges from hot, dry summers to mild winters. What started as a town developed by disappointed miners from the famed Gold Rush has blossomed into a thoroughly developed, independent city boasting an estimated population of 104,655 residents (as of January 1, 2006). Roseville incorporated on April 10, 1909 and is a charter city operating under a City Manager-Council form of government.

30. Symbiotic Engineering, LLC

Boulder, CO

www.symbiotic-engineering.com

Joined the Registry on: 12/26/2007

Symbiotic Engineering's areas of expertise include greenhouse gas and sustainability management and the provision of quantification metrics and tools to evaluate "green" developments, projects and products. They utilize tools such as life-cycle assessment, life-cycle costing and material flows analyses to identify systemic approaches for reducing environmental impacts.

31. Cameron-Cole, LLC

Boulder, CO

www.cameron-cole.com

Joined the Registry on: 12/27/2007

Cameron-Cole, LLC is a full-service U.S.-based environmental and social issues consulting firm. We help our clients address the technical and management challenges involved in achieving operational success, preserving environmental quality, and implementing socially responsible

and sustainable practices. Cameron-Cole was established in 2001 as a management-owned, independent consulting firm with its roots reaching back to the 1980s as part of several leading industrial organizations. Since 1988, core professionals at our firm have provided a broad range of services to address complex environmental and social issues faced by our public and private sector clients.

32. PacifiCorp

Portland, OR

www.pacificorp.com

Joined the Registry on: 12/27/2007

PacifiCorp is one of the lowest-cost electricity producers in the United States, providing more than 1.6 million customers with reliable, efficient energy. PacifiCorp has more than 10,400 megawatts of generation capacity from coal, hydro, renewable wind power, gas-fired combustion turbines, solar and geothermal. PacifiCorp operates as Pacific Power in Oregon, Washington and California; and as Rocky Mountain Power in Utah, Wyoming and Idaho.

33. Minnesota Pollution Control Agency

St. Paul, MN

www.pca.state.mn.us/index.cfm

Joined the Registry on: 12/27/2007

The Minnesota Pollution Control Agency's (MPCA) purpose is to protect Minnesota's environment through monitoring environmental quality and enforcing environmental regulations.

34. City of Greenville, South Carolina

Greenville, SC

www.greatergreenville.com

Joined the Registry on: 12/27/2007

Greenville is located in the Piedmont region of South Carolina in the foothills of the Blue Ridge Mountains. The area, commonly referred to as the Upstate, includes Greenville, Spartanburg, Anderson, Pickens and Cherokee counties and the cities of Anderson, Clemson, Greenville, Simpsonville, Greer and Spartanburg.

35. Earth Advantage, Inc.

Portland, OR

www.earthadvantage.com

Joined the Registry on: 12/27/2007

Earth Advantage has transformed itself over the past decade from a utility-based energy conservation focus to a fully encompassed sustainability program. They are now a free standing nonprofit organization acting as the Northwest's premier green building program. They work with builders and developers to bring the most energy efficient, sustainable and healthy homes to the market.

36. MotivEarth, LLC

San Diego, CA

www.motivearth.com

Joined the Registry on: 12/27/2007

MotivEarth's mission is help companies and people to identify and implement strategic solutions that reduce global warming emissions. Their vision is to create a vibrant community that connects companies, solution providers and people as partners with a singular goal; to prevent global warming.

37. Ecos Consulting

Portland, OR

www.ecosconsulting.com

Joined the Registry on: 12/28/2007

Ecos delivers proven results for clients looking to reduce their energy use, manage their carbon emissions and make their operations more environmentally sustainable. With over a decade of experience designing innovative ways to couple the power of ecology with the engine of our economy, Ecos performs the research, develops the plans and carries out the projects that make the most significant impact on the vitality of both our clients and our planet.

38. City of Long Beach, California

Long Beach, CA

www.ci.long-beach.ca.us

Joined the Registry on: 12/28/2007

One of the major goals of the City of Long Beach is to become a more sustainable city. The City currently has a variety of environmental programs including a Green Building Policy for Municipal Development, a Construction and Demolition Debris Recycling Program, a comprehensive Green Port Policy, and extensive water conservation programs through the Long Beach Water Department. Through participation in the Registry, the City can make major progress toward sustainability by quantifying its greenhouse gas emissions and using the information to reduce future emissions.

39. Kleinfelder, Inc.

Golden, CO

www.kleinfelder.com

Joined the Registry on: 12/31/2007

Kleinfelder is a leading professional services firm in natural and built environments for municipalities, government agencies, multinational companies and industrial concerns across the nation. With a staff of nearly 2,000 Kleinfelder is one of the nation's largest employee-owned firms providing planning, engineering, scientific, technical and management solutions.

40. First Environment

Boonton, NJ

www.firstenvironment.com

Joined the Registry on: 12/28/2007

First Environment was founded in New Jersey in 1977 under the name of Groundwater Technology. Our initial focus was guided around dewatering projects and the control of contaminated groundwater. Today, we continue to reflect these roots with our strong presence in the site investigation and remediation field where we maintain our tradition of practical problem solving and innovation. The firm's name was changed to First Environment in 1987 to better reflect the broad range of environmental services provided by the firm.

41. TRC Solutions, Inc.

Irvine, CA

Joined the Registry on: 12/31/2007

www.trcsolutions.com

TRC Companies, Inc. is an engineering, consulting, and construction management firm that provides integrated services to the environmental, energy, infrastructure, and real estate markets. The multi-discipline project teams provide turnkey services to help our clients implement complex projects from initial concept to delivery and operation. A broad range of commercial, industrial, and government clients depend on them for customized and complete solutions to their toughest business challenges.

42. Alcoa

Ferndale, WA

www.alcoa.com

Joined the Registry on: 12/31/2007

Alcoa is the world's leading producer and manager of primary aluminum, fabricated aluminum and alumina facilities, and is active in all major aspects of the industry. Alcoa serves the aerospace, automotive, packaging, building and construction, commercial transportation, and industrial markets, bringing design, engineering, production, and other capabilities of Alcoa's businesses as a single solution to customers. In addition to aluminum products and components, Alcoa also makes and markets consumer brands including Reynolds Wrap®, Alcoa® wheels, and Baco® household wraps. Among its other businesses are closures, fastening systems, precision castings, and electrical distribution systems for cars and trucks.

43. Salt Lake County, Utah

Salt Lake City, UT

www.slco.org

Joined the Registry on: 1/2/2008

Salt Lake County employs over 7,000 workers and includes more than three dozen agencies providing nearly 100 services. Salt Lake County has built and operates two world-class softball complexes and operates six public golf courses. The county recruits more than 33,000 volunteers annually while their sports programs attract 130,000 participants per year. Salt Lake County also operates Utah's largest library system, circulating 11 million items per year, Utah's largest fire department and law enforcement agency.

44. Shell Oil Company

Houston, TX

www.shell.com

Joined the Registry on: 1/3/2008

Shell is an energy company which explores for, produces and trades in a range of energy resources. We explore for and produce oil and gas and we create essential products from them, such as fuels and petrochemicals. We also have a broad portfolio of hydrogen, biofuels, wind and solar power interests. Shell provides consultancy and technical services as well as research and development expertise to the energy industry.

45. Los Alamos National Laboratory

Los Alamos, NM

www.lanl.gov

Joined the Registry on: 1/3/2008

Los Alamos National Laboratory is a premier national security research institution, delivering scientific and engineering solutions for the nation's most crucial and complex problems. Their primary responsibility is ensuring the safety, security, and reliability of the nation's nuclear deterrent. The Los Alamos of today emphasizes worker safety, effective operational safeguards & security, and environmental stewardship, while outstanding science remains the foundation of the Laboratory.

46. Jacques Whitford Limited

Saint John, New Brunswick

www.jacqueswhitford.com

Joined the Registry on: 1/3/2008

Jacques Whitford environmental consultants provide environmental consulting services to clients throughout Canada and North America

47. SAIC

McLean, VA

www.saic.com

Joined the Registry on: 1/8/2008

SAIC is a leading systems, solutions and technical services company. With approximately 44,000 employees in more than 150 cities worldwide, SAIC engineers and scientists solve complex technical challenges requiring innovative solutions for customers' mission-critical functions.

48. Minnesota Metropolitan Council

St. Paul, MN

www.metrocouncil.org

Joined the Registry on: 1/9/2008

Minnesota Metropolitan Council provides cost-effective services, coordinates orderly and economic development, and assists communities as they plan for anticipated growth. The Council carries out the Framework, in part, through its plans for "regional systems" – transportation, airports, regional parks, and wastewater collection and treatment.

49. Coastal Conservation League

Charleston, SC

coastalconservationleague.org

Joined the Registry on: 1/10/2008

Since 1989, the Coastal Conservation League has been working with communities, businesses, other conservation and citizen groups, to protect the South Carolina coast. Its mission is to protect the natural environment of the South Carolina coastal plain and to enhance the quality of life of our communities by working with individuals, businesses and government to ensure balanced solutions.

50. Covanta Energy Corporation

Fairfield, NJ

www.covantaholding.com

Joined the Registry on: 1/10/2008

Covanta Energy is an internationally recognized owner and operator of Energy-from-Waste and power generation projects. Covanta Energy's Energy-from-Waste facilities convert municipal solid waste into renewable energy for numerous communities, predominantly in the United States.

51. South Carolina Department of Health & Environmental Control

Columbia, SC

www.scdhec.gov

Joined the Registry on: 1/11/2008

The Department of Health and Environmental Control (DHEC) promotes and protects the health of the public and the environment. In addition to their offices in Columbia, DHEC operates health and environmental regional offices, as well as local health departments and clinics, to ensure that the many programs and services we provide will meet the needs of local areas.

52. Newmont Nevada Energy Investment, LLC.

Battle Mountain, NV

www.newmont.com

Joined the Registry on: 1/11/2008

Newmont is one of the world's leading gold companies. Headquartered in Denver, Colorado, the company employs approximately 15,000 people, the majority of whom work at Newmont's mines sites in the United States, Australia, Peru, Indonesia, Bolivia, New Zealand and Mexico.

53. Xcel Energy

Minneapolis, MN

www.xcelenergy.com

Joined the Registry on: 1/11/2008

As a leading combination electricity and natural gas energy company, Xcel Energy offers a comprehensive portfolio of energy-related products and services to 3.3 million electricity customers and 1.8 million natural gas customers. Xcel Energy has regulated operations in 8 Western and Midwestern states, has a revenue of more than \$9 billion annually; and owns more than 34,500 miles of natural gas pipelines. Xcel Energy's key environmental commitment includes improving air quality, conserving resources, harnessing renewable energy, and protecting wildlife and habitats.

54. Duke Energy Corporation

Charlotte, NC

www.duke-energy.com

Joined the Registry on: 1/14/2008

Duke Energy is a leading energy company located in the Americas with an affiliated real estate operation. Duke Energy's purpose is to create superior and sustainable value for its customers, employees, communities and investors through the production, conversion, delivery and sale of energy and energy services.

55. S.C.P.S.A., Santee Cooper

Moncks Corner, SC

www.santeecooper.com

Joined the Registry on: 1/15/2008

Santee Cooper is South Carolina's state-owned electric and water utility. It serves over 155,000 residential and commercial electric customers in Berkeley, Georgetown and Horry counties. Santee Cooper also generates the power distributed by the state's 20 electric cooperatives to more than 625,000 customers in all 46 counties. More than 1.8 million South Carolinians receive their power directly or indirectly from Santee Cooper.

56. Tucson Electric Power Company

Tucson, AZ

www.tucsonelectric.com

Joined the Registry on: 1/17/2008

Tucson Electric Power Company (TEP), a wholly-owned subsidiary of UniSource Energy Corporation, owns and operates electric generation, transmission, and distribution assets and reliably serves more than 395,000 customers in Southern Arizona. TEP generates electricity both from firing fossil fuels as well as from the use of renewable resources. However, the great majority of TEP's annual electric generation is from coal-fired units.

57. E. H. Pechan & Associates

Springfield, VA

www.pechan.com

Joined the Registry on: 1/30/2008

Founded in 1981, Founded in 1981, Pechan is a technology-oriented consulting firm specializing in a full range of air pollution, climate change, information technology and management consulting services with offices located in Springfield, Virginia and Durham, North Carolina. The firm is recognized for its in-depth knowledge of air pollution and greenhouse gas technical and policy issues and for its experience in criteria air pollutant, hazardous air pollutant and greenhouse gas emission inventory development and improvement, complex economic and policy models, mitigation support

58. Cleveland-Cliffs Inc.

Cleveland, OH

www.cleveland-cliffs.com

Joined the Registry on: 1/30/2008

Cleveland-Cliffs Inc, headquartered in Cleveland, Ohio, is an international mining company, the largest producer of iron ore pellets in North America and a major supplier of metallurgical coal to the global steelmaking industry. The Company operates six iron ore mines in Michigan, Minnesota and Eastern Canada, and three coking coal mines in West Virginia and Alabama. Cliffs also owns 80 percent of Portman Limited, a large iron ore mining company in Australia, serving the Asian iron ore markets with direct-shipping fines and lump ore. In addition, the Company has a 30 percent interest in the Amapá Project, a Brazilian iron ore project, and a 45 percent economic interest in the Sonoma Project, an Australian coking and thermal coal project.

59. Shore Bank Pacific

Ilwaco, WA

www.eco-bank.com

Joined the Registry on: 1/30/2008

ShoreBank Pacific is the first commercial bank in the United States with a commitment to

environmentally sustainable community development. We believe that long-term community prosperity goes hand-in-hand with a healthy environment. With that vision, ShoreBank Pacific, a Washington State chartered, FDIC insured bank, was formed in 1997 as a joint project of ShoreBank Corp., Chicago (the nation's first community development bank) and Ecotrust™, an environmental non-profit located in Portland, Oregon. Through our lending programs, ShoreBank Pacific brings together conservation and community and economic development.

60. GDTS Chartered Accountants

Saint-Lambert QC Canada

Joined the Registry on: 1/30/2008

61. Progress Energy

Raleigh, NC

www.progress-energy.com

Joined the Registry on: 1/30/2008

Progress Energy, headquartered in Raleigh, N.C., is a Fortune 250 energy company with more than 21,000 megawatts of generation capacity and \$9 billion in annual revenues. The company will observe its 100th anniversary in 2008. Progress Energy includes two major utilities that serve more than 3.1 million customers in the Carolinas and Florida. The company is the 2006 recipient of the Edison Electric Institute's Edison Award, the industry's highest honor, in recognition of its operational excellence. The company also is the first utility to receive the prestigious J.D. Power and Associates Founder's Award for customer service.

62. Platte River Power Authority

Fort Collins, CO

www.prpa.org

Joined the Registry on: 1/30/2008

Platte River provides wholesale electric power to four municipal electric systems in northern Colorado. Platte River operates under an organic contract with the municipalities of Estes Park, Fort Collins, Longmont and Loveland on whose behalf Platte River acts as a wholesale electric utility, acquiring, constructing and operating generation capacity and supplying electric energy on a requirements basis. Platte River is a political subdivision and public corporation of the State of Colorado, United States of America, established as a separate entity by Colorado State Legislation in 1973.

63. SCANA Corporation

Columbia, SC

www.scana.com/en

Joined the Registry on: 2/29/2008

SCANA is a \$10 billion, Fortune 500, energy-based holding company - and so much more. Its subsidiaries and affiliates are involved in the generation and sale of electricity, as well as in the purchase, sale and transportation of natural gas to wholesale and retail customers in South and North Carolina and Georgia. They also engage in other energy-related businesses and provide fiber optic communications.

64. Ecology and Environment, Inc.

Lancaster, NY

www.ene.com

Joined the Registry on: 2/29/2008

Ecology and Environment, Inc., (E & E) works to devise solutions that promote global sustainable economic and human development with minimum negative environmental impact. E & E draws from an international network of more than 800 specialists with expertise in environmental planning and assessment, compliance support, hazardous waste investigation and design engineering, emergency management and training, and associated Web and GIS services.

65. Port of Los Angeles

San Pedro, CA

www.portoflosangeles.org

Joined the Registry on: 3/3/2008

The Port of Los Angeles is located just 20 miles south of downtown Los Angeles and sustains cargo operations, groundbreaking environmental initiatives, progressive security measures and diverse recreational and educational facilities. The Port is a department of the City of Los Angeles and is often referred to as the Los Angeles Harbor Department. A five-member Board of Harbor Commissioners are appointed by the Mayor and confirmed by the Los Angeles City Council to provide direction and create policy for the Port.

66. Enviance, Inc.

Mountain View, CA

www.enviance.com

Joined the Registry on: 3/6/2008

Enviance was founded by Larry Goldenhersh after more than 15 years as a successful Los Angeles attorney to help change the compliance arena. Enviance delivers software that automates and improves the management of environmental, health and safety compliance activities. The first and leading operator of Internet-based compliance software as a service, Enviance is trusted by many leading organizations to help them reduce the time and cost of managing compliance, retain institutional knowledge, and confidently certify compliance.

67. Carbon Credit Corp.

Vancouver, BC

www.carboncreditcorp.biz/comp-back.html

Joined the Registry on: 3/10/2008

Carbon Credit Corp (CCC) provides comprehensive technology solutions, consultancy and services related to GHG emissions and climate protection to Canadian organizations. The company designs "green" strategies for public companies allowing them to take best advantage of carbon credits and renewable technologies. CCC has developed a program with Canada's largest agricultural services company to aggregate carbon credits generated from western Canadian farms. The credits are generated through soil sequestration and beneficial management practices.

68. Smart Paper Holdings, LLC.

Hamilton, OH

www.smartpapers.com

Joined the Registry on: 3/10/2008

Smart Paper Holdings, LLC is an independent manufacturer and marketer of premium coated and uncoated printing papers; papers with a broad range of applications in the

graphic arts, label and packaging, and specialty converting markets. Located in Hamilton, Ohio, in the founding mill of the former Champion Papers where Kromekote was developed, they market a wide selection of premium branded writing, text and cover papers, matte-coated and label papers.

69. Castle & Cooke Florida, LTD

Winter Garden, FL

www.castlecooke.com/index.html

Joined the Registry on: 3/14/2008

Castle & Cooke is a privately held company owned by chairman and CEO, David H. Murdock. With over 10 million square feet of space and divisions in California, Arizona, Florida and Hawaii, the company brings a great deal of experience and expertise to every project it develops. Castle & Cooke have a green building commitment, recognizing that energy conservation, putting recycled materials to use and implementing new sources of energy efficiency are the responsibility of builders concerned with a homeowner's quality of life, their pride of ownership and the future value of their homes.

70. Ecotek

Fountain Valley, CA

www.ecotek.com

Joined the Registry on: 3/14/2008

Ecotek is an environmental problem solving company that works in many fields: commercial, industrial, manufacturing, and institutional, implementing programs to manage regulatory impacts. Services include design of data collection instruments, data entry, data reduction, and reporting, Annual Emission Reporting Programs, and custom software development for specific needs.

71. Pennsylvania Recycling Markets Center

Middletown, PA

www.parmc.org

Joined the Registry on: 3/25/2008

The Pennsylvania Recycling Markets Center mission is "...to expand and develop secure and robust markets for recycled materials by helping to overcome market barriers and inefficiencies." In response to Act 101, the Commonwealth of Pennsylvania has established an extensive set of programs that promote and support the development and expansion of recycling at the local level. The primarily "supply-side" efforts by the Commonwealth have been crucial in achieving the current statewide waste reduction and recycling levels.

72. Saint Olaf College

Northfield, MN

www.stolaf.edu

Joined the Registry on: 3/27/2008

Founded in 1874, St. Olaf is a national liberal arts college of the Evangelical Lutheran Church in America with world-class programs in music and mathematics. It is recognized for innovative approaches to undergraduate science education, long-standing engagement in global education and commitment to environmental sustainability. The college aims to conserve energy in offices, dorm rooms, computer labs, the cafeteria, etc., reduce dependence on

fossil-fueled cars and trucks, look for cleaner energy sources, and consider generating our own power according to the Hannover Principles.

73. Grand Targhee Resort

Alta, WY

www.grandtarghee.com

Joined the Registry on: 3/28/2008

The Grand Targhee Resort is a full-service, self-contained, year-round resort located just a beautiful one-hour drive from Jackson Hole, in the heart of Wyoming's majestic Teton Mountains. Famous for an abundance of Mother Nature's finest snow, Grand Targhee offers two mountains for skiing and riding with over 2,000 acres of lift-served terrain. The complete mountain village offers shopping, dining, a variety of activities, live entertainment and hotel and condominium accommodations, all with ski-in/ski-out access. Located in the Caribou-Targhee National Forest, Grand Targhee is the main gateway to Grand Teton and Yellowstone National Parks. Surrounded by fields of wildflowers, the resort features panoramic vistas spanning three states, with incredible views of the Grand Teton which rises to almost 14,000 feet. Guests can enjoy a variety of outdoor activities including horseback riding, mountain biking, hiking, swimming, and more.

74. MidAmerican Energy Company

Des Moines, IA

www.midamericanenergy.com

Joined the Registry on: 3/31/2008

MidAmerican Energy Company is the largest utility in Iowa and is strategically located in the middle of several major markets in the Midwest. The company provides service to more than 720,000 electric customers and more than 702,000 natural gas customers in a 10,600 square-mile area. MidAmerican is committed to addressing responsibly the issue of climate change and has been an industry leader in undertaking actions that reduce greenhouse gas emissions. The company has been leaders in the use of renewable energy (which constitutes 17 percent of its generation capabilities) and in reducing its carbon intensity per megawatt-hour (a 9 percent reduction between 2000 and 2005).

75. Element Markets, LLC

Houston, TX

www.elementmarkets.com

Joined the Registry on: 4/1/2008

An innovative carbon management and alternative energy company, Element Markets, LLC helps companies take full advantage of today's environmental business opportunities—from credit trading to project development and technology commercialization. Element Markets actively trades in regional and federal emissions markets, manages a significant portfolio of emissions credits and allowances, owns a large inventory of credits, and participates in all mandatory and voluntary North American REC trading markets. Element Markets also develops renewable energy projects to provide clean energy by bringing together the best technology, service providers and project solutions, working with a variety of companies and organizations to expand their clean energy footprint.

76. American Energy Assets

Denver, CO

www.americanenergyassets.com

Joined the Registry on: 4/1/2008

American Energy Assets is a national leader in applying energy and climate expertise to businesses nationwide. AEA is a vendor and technology neutral company that partners with companies to apply the right solutions, to the right facilities, at the right time. Our On-track program helps businesses prepare for the New Energy Economy. This program includes the "4 C's": Conservation, Carbon Tracking, Clean Energy, and Community Recognition.

77. EORM, Inc.

Sunnyvale, CA

www.eorm.com

Joined the Registry on: 4/4/2008

EORM partners with companies worldwide to develop and implement cost-effective Environmental, Health, and Safety (EHS) management and technical consulting solutions. Our services range from assessing and managing EHS programs, to improving EHS, and ultimately to communicate client company's EHS performance.

78. Environmental Planning Specialists, Inc

Atlanta, GA

www.envplanning.com

Joined the Registry on: 4/4/2008

EPS is a consulting firm that has helped companies for more than a decade on identifying and facilitating business opportunities and sustainability strategies that maximize value and drive profitable growth. EPS helps its clients maintain regulatory compliance, aim for environmental excellence, and achieve high standards of corporate responsibility – all as elements of profitable growth. Its clientele consists primarily of industrial facilities, law firms, commercial real estate developers, governmental agencies, banking institutions, and insurance carriers.

79. Westar Energy, Inc.

Topeka, KA

www.WestarEnergy.com

Joined the Registry on: 4/4/2008

Westar Energy, Inc is the largest utility in Kansas, providing electric service to about 669,000 customers in the state. Westar Energy has about 6,000 megawatts of electric generation capacity and operates and coordinates approximately 33,000 miles of electric distribution and transmission lines. For more information about Westar Energy, visit us on the Internet at www.WestarEnergy.com.

80. City of Syracuse, New York

Syracuse, NY

www.syracuse.ny.us

Joined the Registry on: 4/7/2008

Syracuse has been ranked 17th in America's Greenest Cities by Popular Science. Syracuse received the 2007 Go Green International Earth Summit award for the Large City of the Year and the 2008 conference will be held in Syracuse. Syracuse will be honored by Greening USA at its annual meeting in April 2008. Syracuse has joined ICLEI as part of its climate protection plan. Syracuse has geared up for data collection for the climate registry and is preparing a

carbon profile for possible joining of the Chicago Climate Exchange. Syracuse truly represents local government for sustainability.

81. Suncor Energy USA Inc.

Commerce City, CO

www.suncor.com

Joined the Registry on: 4/8/2008

Suncor Energy (USA) Inc. is a wholly owned indirect subsidiary of Suncor Energy Inc. Suncor Energy Inc. is an integrated energy company headquartered in Calgary, Alberta. Suncor's oil sands business, located near Fort McMurray, Alberta, extracts and upgrades oil sand and markets refinery feedstock and diesel fuel, while operations throughout Western Canada produce natural gas. Suncor operates a refining and marketing business in Ontario with retail distribution under the Suncor brand. Suncor Energy's operations in the United States include a refinery in Commerce City, Colorado, pipeline operations that stretch between Wyoming and Denver, and retail assets in Colorado that are operated under the Phillips 66 brand. These businesses provide a vital link between Suncor's large oil sands resource in Canada and the growing energy market in the United States. Suncor's common shares (symbol: SU) are listed on the Toronto and New York stock exchanges.

82. NYS Environmental Facilities Corporation

Albany, NY

www.nysefc.org/home/index.asp

Joined the Registry on: 4/9/2008

The mission of the NYS Environmental Facilities Corporation is to promote environmental quality by providing low-cost capital and expert technical assistance to municipalities, businesses and State agencies for environmental projects in New York State. Our purpose is to help public and private entities comply with federal and state environmental requirements.

83. Aquarium of the Pacific

Long Beach, CA

www.aquariumofpacific.org

Joined the Registry on: 4/9/2008

The Aquarium of the Pacific is 501 (c) (3) non-profit organization dedicated to educating everyone about the Pacific Ocean. It has enjoyed increased attendance for the last six years and reaches 1.5 million children, youth and adults annually. The aquarium's leadership in environmental conservation and awareness-promoting curriculum is unsurpassed in the region.

84. New York Power Authority

White Plains, NY

www.nypa.gov

Joined the Registry on: 4/11/2008

The New York Power Authority is the nation's largest state-owned electric utility, with 18 generating facilities in various parts of New York State and more than 1,400 circuit-miles of transmission lines, NYPA is a leader in promoting energy efficiency, new energy technologies and electric transportation initiatives. NYPA uses no tax money or state credit, and finances its operations through the sale of bonds and revenues earned in large part through the sales of electricity.

85. RiverWright LLC

Buffalo, NY

www.riverwrightllc.com

Joined the Registry on: 4/14/2008

The \$85 million project will break ground in March 2008, and begin producing ethanol in January 2009. The plant will purchase 36 million bushels of corn from farmers in upstate New York, Pennsylvania, the Midwest and Canada, and sell 110 million gallons of ethanol each year, along with 400,000 tons of feed grain. There are several factors related to RiverWright that will enable it to compete effectively in the fuel ethanol production industry. These include an existing plant infrastructure and grain storage, existing water and rail infrastructure into the plant property, ready-markets for ethanol into New York State, perfect project timing with an unprecedented demand for ethanol, the recent extension of the federal Small Producer Tax Credit, a strong bi-partisan national political support for ethanol, and a strong and dedicated project team.

86. 3Degrees

San Francisco, CA

www.3degreesinc.com

Joined the Registry on: 4/14/2008

3Degrees helps fund high-quality clean energy and carbon reduction projects through financial commitments by North American businesses, utilities, government agencies and universities seeking to reduce their environmental footprint. It does this by originating and providing Green-e Energy Certified Renewable Energy Certificates and third-party certified Verified Emission Reductions from around the world. The company engages customers to develop, execute, and communicate sustainability strategies that add value to their brand. Since 2002, the 3Degrees team has provided renewable energy and carbon reduction solutions to hundreds of organizations helping to direct capital to over 200 clean energy and other carbon reduction projects across the globe.

87. Mazzetti & Associates

San Francisco, CA

www.mazzetti.com

Joined the Registry on: 4/15/2008

Now more than 100 professionals and staff in four offices throughout the west coast, Mazzetti & Associates always seeks first to understand a problem from the client's perspective, and, then, to provide solutions that work for the client first, and from an engineering perspective second. Mazzetti & Associates is a mechanical, electrical, plumbing and telecommunications consulting and engineering design firm. The firm is into its second generation of management, and blends the best of old and new practice philosophies: quality work, attention to detail and dedication with innovative design, intensive client service and the extensive use of technology.

88. Cadence Network, Inc.

Cincinnati, OH

www.cadencenet.com

Joined the Registry on: 4/15/2008

Cadence is the nation's leading provider of expense management solutions for multi-site businesses. Working with clients in industries such as retail, telecommunications, grocery, restaurant, hospitality, health care, industrial and financial services, it has delivered more than

\$235 million in hard-dollar savings with an average net returns in excess of 200% for tens of thousands of individual client locations throughout North America. Cadence provides a wide range of customized services that enable companies to monitor, measure and reduce operational expenses. Located in Cincinnati, OH, Cadence has been providing expense management services to multi-site businesses since 1997.

89. City of West Hollywood, California

West Hollywood, CA

www.weho.org

Joined the Registry on: 4/15/2008

At present, the City has grown to 39,000 residents and remains as Los Angeles' hottest destination for the entertainment industry with its boutique hotels, celebrity-owned restaurants, unparalleled nightlife and shopping, and events like the Vanity Fair Oscar Party and the largest Halloween Street Party in the world. West Hollywood continues to be an example for progressive, creative individuals on the cutting edge of trends and new ideas, working together as a community in one of the most sprawling cities in the country.

90. NYS Department of Environmental Conservation

Albany, NY

www.dec.ny.gov

Joined the Registry on: 4/17/2008

The mission of the New York State Department of Environmental Conservation is to conserve, improve and protect New York's natural resources and environment and to prevent, abate and control water, land, and air pollution in order to enhance the health, safety, and welfare of the people of the state and their overall economic and social well-being. This mission is achieved by embracing the elements of sustainability – the simultaneous pursuit of environmental quality, public health, economic prosperity and social well-being, including environmental justice and the empowerment of individuals to participate in environmental decisions that affect their lives.

Minneapolis, MN

www.barr.com

Joined the Registry on: 4/22/2008

Barr's staff of more than 400 engineers, scientists, and technical support specialists provide engineering and environmental services to clients in the mining, power, refining, manufacturing, and forest products industries, as well as to attorneys and municipal, state, and federal agencies. Our areas of expertise include: environmental permitting, management and compliance assistance; water-supply and wastewater-treatment design; water resources management; new facility permitting and design; process and materials handling design; and contaminated-site assessment and remediation. Incorporated as an employee-owned firm in 1966, Barr has offices in Minneapolis, Duluth, and Hibbing, Minnesota; Ann Arbor, Michigan; Jefferson City, Missouri; and Bismarck, North Dakota.

107. West Basin Municipal Water District

Carson, CA

www.westbasin.org

Joined the Registry on: 4/22/2008

West Basin Municipal Water District (West Basin) is a public agency that purchases imported water from the Metropolitan Water District of Southern California [MWD] and wholesales the water to 17 cities in Los Angeles County. To protect against seawater intrusion, West Basin provides barrier water for injection into the South Bay's groundwater basin. West Basin also supplies the region with recycled water for municipal, commercial, and industrial use. In addition, West basin has an aggressive water conservation program and performs ocean desalination research.

108. The Climate Trust

Portland, OR

www.climatetrust.org

Joined the Registry on: 4/22/2008

The Climate Trust, a 501 (c) (3) non-profit headquartered in Portland, Oregon, is a pioneer in the greenhouse gas offset market. In 1997, Oregon passed the first law in the US to limit greenhouse gases, requiring owners of new fossil fueled plants to offset a portion of their facilities' emissions. The Climate Trust was formed to acquire offsets on behalf of these entities. Our mission is to promote climate change solutions by providing high quality greenhouse gas offset projects and advancing sound offset policy.

109. Minnesota Power

Duluth, MN

www.mnpower.com

Joined the Registry on: 4/23/2008

Minnesota Power, a division of [ALLETE](#), provides electricity in a 26,000-square-mile electric service territory located in northeastern Minnesota. Minnesota Power supplies retail electric service to 141,000 customers and wholesale electric service to 16 municipalities. Minnesota Power generates and buys power generated from a variety of sources, including coal, gas, biomass and wind, in locations from North Dakota to Lake Superior's North Shore. Minnesota Power's history stretches back to 1870, when financier Jay Cooke began acquiring land on both sides of the St. Louis River near Duluth in anticipation of hydroelectric units being built there. Construction was begun in 1905 by MP's predecessor.

110. Saunders Thread Company

Gastonia, NC

www.saunders-thread.com

Joined the Registry on: 4/23/2008

Saunders Thread Company is an innovative manufacturer of all types of high-performance threads and yarns used in a wide range of applications. Joined the Registry on: 4/24/2008

Climatix Corporation provides data and energy management products and services for renewable energy installations across North America.

116. Vermont Technical College

Randolph Center, VT

www.vtc.edu

Joined the Registry on: 4/24/2008

Vermont Tech is the only public institution of higher learning in Vermont whose mission is technical education. Our graduates are the backbone of the state's technical workforce and are highly valued by their employers. Our technical programs encompass a wide range of engineering technology, agricultural and business fields, including the new Bachelor of Science program in Sustainable Design and Technology. Vermont Tech is also the home of the Center for Sustainable Practices (CSP) – a resource center connecting students, businesses and the community at large. CSP integrates education, technology and the economy through training programs, student-based service learning and by demonstrating local, hands-on solutions in areas such as energy efficiency and auditing, renewable energy, green building design and construction, permitting, land use and agriculture.

117. Carbon Solutions America, LLC

Boca Raton, FL

Joined the Registry on: 4/24/2008

Carbon Solutions America, LLC provides advisory services to U.S. based firms looking to navigate either the Voluntary Carbon Markets or eventual adoption of Greenhouse Gas reduction policies to the U.S. It also provides unbiased and independent consulting services with an open architecture platform with access to best-of- breed service providers. We specialize in performing carbon footprints and implementing reduction/sustainability plans.

118. Noblis

Falls Church, VA

www.noblis.org

Joined the Registry on: 4/24/2008

Noblis is a nonprofit science, technology and strategy organization that helps clients solve complex systems, process and infrastructure problems. From our unique impartial stance, we do what's right and what works best for our clients and the public good.

Portland, OR

www.greenbuildingservices.com

Joined the Registry on: 4/24/2008

Green Building Services is a professional consulting firm comprised of architects, engineers, planners, interior designers, and construction specialists who share a passion for sustainability. Our consultants have actively guided clients to identify and implement green building, development and facility management strategies since 2000.

120. World Resources Institute

Washington, DC

www.wri.org

Joined the Registry on: 4/24/2008

The World Resources Institute (WRI) is an environmental think tank that goes beyond research to find practical ways to protect the earth and improve people's lives. Its mission is to move human society to live in ways that protect Earth's environment and its capacity to provide for the needs and aspirations of current and future generations. Because people are inspired by ideas, empowered by knowledge, and moved to change by greater understanding, WRI provides—and helps other institutions provide—objective information and practical proposals for policy and institutional change that will foster environmentally sound, socially equitable development.

121. MGM International Group, LLC

Miami, FL

www.mgminter.com

Joined the Registry on: 4/24/2008

MGM International, "The best CDM/JI project developer in 2005", is a leader in the development of greenhouse gas emission reduction projects worldwide and in the commercialization of the resulting emission reduction projects in the CDM, JI and Voluntary Markets. Since 2000, MGM has been a one-stop solution for all emission reduction needs and, as such, a pioneer in the carbon market through the identification, design, negotiation, and execution and monitoring of greenhouse gas projects.

122. West Linn Paper Company

West Linn, OR

www.wlinpco.com

Joined the Registry on: 4/24/2008

West Linn Paper Company is a small, independent paper manufacturer procuring 700 tons per day of high quality #2 and #3 coated freesheet paper under the brand names of Sonoma, Capistrano and Nature.

123. NativeEnergy, Inc.

Charlotte, VT

www.nativeenergy.com

Joined the Registry on: 4/24/2008

NativeEnergy leverages market demand for carbon offsets to bring on line new Native America, family farmer and community-owned renewable energy projects. NativeEnergy offers third party verified and certified renewable energy credits and offsets from a variety of operating projects across America and Internationally. Through its novel approach of bringing upfront payment to renewable projects for the estimated future carbon offsets, NativeEnergy enables clients to help directly finance the construction of specific new renewable energy projects. NativeEnergy continues to focus on real, additional offsets that provide both an environmental and a social benefit, for both people and planet.

124. Horizon Environmental Corporation

Detroit, MI

www.horizonenv.com

Joined the Registry on: 4/24/2008

Horizontal Environmental Corporation is an innovative environmental consulting and engineering firm with two offices in Michigan and practical project experience throughout the United States. Our scientists and engineers are leaders in their fields of air quality, brownfield redevelopment, site characterization, environmental remediation, soil, ground water and surface water quality, and construction management. Horizon Environmental Corporation's Sustainable Business Group provides a single point of contact for clients seeking to adopt sustainable business practices and brings together the extensive experience of our engineering professionals in energy management, environmental auditing, and emissions trading.

125. Juice Energy, Inc.

New York, NY

www.juice-inc.com

Joined the Registry on: 4/24/2008

Juice Energy, Inc. is an independent retail electricity supplier providing electricity, green power, and greenhouse gas management services to commercial and industrial clients in de regulated markets. Juice integrates custom design risk management solutions with transparent access to wholesale power, REC, and offset markets. Juice is currently serving clients in New York and Texas, with operations in Illinois set to begin in late 2008.

126. First Climate

Washington, DC

www.firstclimate.com

Joined the Registry on: 4/24/2008

First Climate (previously 3C and Factor) is a carbon market service provider. They develop projects and originate carbon credits through a global network. They also buy carbon credits through their funds and facilitate the direct sale to 3rd parties (brokerage). First Climate focuses on carbon credit commercialization via products to climate neutral clients and mid-sized companies within the EU-ETS and elsewhere.

Bothwell, WA

Joined the Registry on: 4/25/2008

128. Limousine Environmental Action Partnership

Newtown, CT

www.leapcars.com

Joined the Registry on: 4/25/2008

The Limousine Environmental Action Partnership (LEAP) is a 501 (c) (3), not-for-profit certification and educational foundation representing chauffeured ground transportation limousine companies that are committed to demonstrating their environmental leadership by voluntarily committing to measure, verify, and publicly report their greenhouse gas emissions.

129. NYSERDA

Albany, NY

www.nyserdera.org

Joined the Registry on: 4/25/2008

New York State Energy Research and Development Authority (NYSERDA) is a public benefit corporation created in 1975 under Article 8, Title 9 of the State Public Authorities Law through the reconstitution of the New York State Atomic and Space Development Authority. NYSERDA's earliest efforts focused solely on research and development with the goal of reducing the State's petroleum consumption. Subsequent research and development projects focused on topics including environmental effects of energy consumption, developments of renewable resources, and advancement of innovative technologies.

130. Syracuse University

Syracuse, NY

www.syr.edu

Joined the Registry on: 4/25/2008

Syracuse University was officially chartered in 1870 as a private, coeducational institution offering programs in the physical sciences and modern languages. The University is located in Syracuse, New York, the geographic center of the state and approximately 250 miles northwest of New York City. The University's fall of 2006 enrollment consisted of 12,144 full-time and 1,012 part-time undergraduate students; 3,927 full-time and 1,999 part-time graduate and law students. Total university enrollment was 19,082. Syracuse University puts bold ideas in motion through Scholarship in Action-a vigorous pursuit of knowledge matched with the ability to make a difference in the world. As it engages with the world, Syracuse University will continue as a leader in promoting and practicing sustainability. The University defines sustainability as balancing the needs and aspirations of the present with the preservation of choices for the future.

131. Maryland Department of the Environment

Baltimore, MD

www.mde.state.md.us

Joined the Registry on: 4/25/2008

MDE's mission is to protect and restore the quality of Maryland's air, water, and land resources, while fostering smart growth, economic development, safe communities, and quality environmental education, for the benefit of the environment, public health, and future generations. The Department accomplishes its mission by assessing, preventing, and controlling sources of pollution to foster an excellent quality of life for all Marylanders.

132. Mirant Corporation

Atlanta, GA

www.firstclimate.com

Joined the Registry on: 4/25/2008

Mirant Corporation makes and sells electricity competitively, reliably, ethically, and safely for our customers. Its business consists of power generation from an asset portfolio of 13 power plants strategically located in high-population areas, and commercial operations that support our power generation plants – and its customers – through logistics, risk management, marketing, and trading activities.

133. University of Hawai'i at Mānoa

Honolulu, HI

www.uhm.hawaii.edu

Joined the Registry on: 4/25/2008

Founded in 1907, the University of Hawai'i at Manoa is the flagship campus for the University of Hawai'i System. A land-grant, sea-grant, and space-grant institution, it is the only public university in Hawai'i. UH Manoa is a diverse and doctorate-level university that emphasizes academic quality; research in Hawaiian, Pacific, and Asian studies; and community service.

134. Sierra Pacific Resources

Las Vegas, NV

www.sierrapacific.com

Joined the Registry on: 4/25/2008

Sierra Pacific Resources is the holding company for Nevada Power Co. and Sierra Pacific Power Co., which provide electricity for nearly 1.2 million electricity customers across the State and natural gas to approximately 140,000 employees in northern Nevada. The company's service area includes Reno, Sparks and Lake Tahoe in northern Nevada, and the southern Nevada cities of Las Vegas, Henderson and surround. The company is a leader in renewable energy. By the end of 2007, Nevada customers achieved the highest per-capita use of solar and geothermal energy in the US.

135. Sokol Blosser Winery

Dundee, OR

www.sokolblosser.com

Joined the Registry on: 4/25/2008

Sokol Blosser is one of the pioneering wineries of the Dundee Hills region of Oregon and has played a key role in developing and shaping the now-prominent Oregon wine industry. The winery is family owned and operated with the second generation now at the helm: siblings

Alex and Alison Sokol Blosser. With over 75 certified organic acres, the winery creates wines of world-class quality, produced in a sustainable manner, which reflects the distinctive flavors of the grapes, soil and climate, as well as the winery's values and sense of place.

www.mitel.com

Joined the Registry on 4/29/2008

Mitel is leading provider of communications solutions for a range of organizations – from the very small, single site offices to the multi-site, large enterprises. We offer customers a broad choice of solutions, from basic business communications to sophisticated unified communications, from pre-packaged to tailored applications, and from an outright capital purchase to a managed service. Mitel operates from over 100 locations in over 90 countries. We service our customers through a network of over 1,500 value-added resellers and partners.

147. Public Utility District No. 1 of Clallam County

Port Angeles, WA

www.clallampud.net

Joined the Registry on 4/29/2008

In 1940 the people of Clallam County voted to establish a Public Utility District. Utility poles needed to be installed, power generated, and an organization rapidly built to support a new, growing electric utility business. It took four years, through World War II, before the Clallam PUD was generating energy. The first PUD manager earned \$50 a month and at one time had to use employees from his own personal business to keep the utility operating. The fledgling PUD developed two more utilities, water and then sewer. In 2000 the Legislature authorized PUD's to go into the wholesale telecommunications business.

148. The Saint Louis Zoo

St. Louis, MO

www.stlzoo.org

Joined the Registry on 4/29/2008

The Saint Louis Zoo is ranked the #1 zoo/animal park for the nation, according to a recent Zagat / Parenting Magazine survey. The Zoo has formed a Resource Conservation & Recycling Committee to study energy and environmental practices that will conserve valuable resources. As a conservation organization, we work hard to save wild things in wild places around the

globe. At the same time, it is important to look at our recycling efforts here at the Zoo and to save on water usage, energy, landfill space and building materials. We hope to make a positive impact by reducing GHG emissions.

149. SouthWestern Power Group II

Phoenix, AZ

www.southwesternpower.com

Joined the Registry on 4/29/2008

SouthWestern Power Group's mission is to develop, construct, own and operate gas-fired power plants in the United States. Gas-fired power plants represent the fastest growing segment of the U.S. power industry. Due to state-of-the-art design, these plants are highly efficient and represent a low-cost and clean source of electricity for today's energy market.

150. Ford Motor Company

Dearborn, MI

www.ford.com

Joined the Registry on 4/29/2008

Ford Motor Company, a global automotive industry leader based in Dearborn, Mich., manufactures or distributes automobiles in 200 markets across six continents. With about 90 plants worldwide, the company's core and affiliated automotive brands include Ford, Lincoln, Mercury, Volvo, and Mazda.

Ford's participation in TCR is consistent with Ford's involvement in facility climate initiatives around the world including voluntary emissions reporting registries, voluntary and mandatory emissions trading schemes, and carbon offsets programs.

151. Colorado Interstate Gas

Colorado Springs, CO

www.elpaso.com

Joined the Registry on 4/29/2008

Colorado Interstate Gas is a major transporter of natural gas in the Rocky Mountain region. The Colorado Interstate gas system is connected to nearly every major supply basin in the Rocky Mountains as well as production areas in the Texas Panhandle, western Oklahoma, western Kansas, and Wyoming.

152. El Paso Natural Gas Company

Colorado Springs, CO

www.elpaso.com

Joined the Registry on 4/29/2008

El Paso Natural Gas anchors the western end of El Paso's pipeline system, transporting natural gas from prolific supply basins in New Mexico, Colorado, Texas, and Oklahoma to growing markets in California, the southwestern United States, and northern Mexico.

153. DPRA, Incorporated

Saint Paul, MN

www.dpra.com

Joined the Registry on 4/29/2008

Our staff includes lawyers, policy analysts, environmental scientists, engineers, geologists, web designers, computer programmers, and management specialists.

154. Parametrix, Inc.

Bellevue, WA

www.parametrix.com

Joined the Registry on 4/29/2008

Parametrix is a 100% employee-owned firm dedicated to providing quality planning, engineering, and environmental sciences with superior client service. Founded in Washington State in 1969, Parametrix now has offices across the western United States and over 550 professionals providing multidisciplinary services in transportation, natural resources and planning, water, wastewater, toxicology, environmental engineering and science, and community building. Within our climate practice, we have strong disciplines in ecosystems marketplace services, low impact development, and air quality permitting.

155. Willis Energy Services LTD

Vancouver, BC, V6C 1N5

www.willisenergy.com

Joined the Registry on 4/29/2008

Willis Energy Services LTD is an energy consulting firm offering engineering, regulatory, planning and public consultation services to utilities, energy producers, and large energy users. We help our clients to manage costs, improve energy use efficiency, and develop economic power projects. Our knowledge of the energy marketplace, engineering experience, management skills, understanding of resource use, emerging environmental issues and technologies, and comprehension of utility planning, help us to develop, implement, and manage a range of cost-effective resource efficiency programs.

156. Arizona Electric Power Cooperative, Inc.

Benson, AZ

www.aepco.coop

Joined the Registry on 4/29/2008

Arizona Electric Power Cooperative, Inc. (AEPSCO) is headquartered in Benson, Ariz. Since 1961 it has been a customer-owned not-for-profit utility producing electricity at Apache Generating Station in Cochise County. Apache Station can produce 560 megawatts of electric energy from three steam units and four gas turbines. Supplemental power is purchased from purchase power providers. AEPSCO has a hydro allocation from Western Area Power Administration as well as 300 K of renewable energy resources. AEPSCO's six member cooperatives currently provide electric service to more than 114,000 customers in the Southwest in Arizona, California and New Mexico.

157. Utah Transit Authority

Salt Lake City, UT

www.rideuta.com

Joined the Registry on 4/29/2008

UTA was founded in March 1970 when the cities of Sandy, Salt Lake and Murray voted to form a transit district. Today, UTA's service area is over 1,400 square miles and covers six counties: Box Elder, Davis, Salt Lake, Tooele, Utah and Weber.

UTA is governed by a 16-member Board of Trustees that continually directs agency staff to improve public transit along the Wasatch Front. Trustees are appointed by the city and county governments that fund UTA with a local option sales tax. Board members work with their appointing local representatives to direct UTA so the agency can best meet the needs of individual communities. Local-elected officials may also serve on the UTA Board, and one seat is reserved for a member of the State Transportation Commission, which is part of the Utah Department of Transportation.

158. Davidson College

Davidson, NC

www3.davidson.edu

Joined the Registry on 4/29/2008

Davidson College is a liberal arts institution founded in 1837 by ministers of the Concord Presbytery. Its 1,700 students come from almost every state in the nation and many foreign countries. A highly selective admission process brings students who are proven scholars and leaders to a close campus community in the small town of Davidson, NC.

159. Malcolm Pirnie, Inc.

White Plains, NY

www.pirnie.com

Joined the Registry on 4/29/2008

The company provides essential life science technologies for disease research, drug discovery, and commercial bio-production. Invitrogen's own research and development efforts are focused on breakthrough innovation in all major areas of biological discovery including functional genomics, proteomics, stem cells, cell therapy and cell biology-placing invitrogen's product in nearly every major laboratory in the world.

175. Natural Capital, LLC

Bozeman, MT

www.natural-capital.com

Joined the Registry on 4/30/2008

Natural Capital offers consulting services for businesses and individuals interested in assessing their environmental impact. We can identify ways to improve energy efficiency, minimize waste, and decrease total greenhouse gas emissions. Sometimes economic realities prevent totally eliminating sources of greenhouse gas pollution. In these cases we offer the option to be "carbon neutral" by offsetting your emissions with certified carbon credits. Natural Capital, LLC develops or invests in projects that either reduce carbon dioxide emissions directly or remove carbon dioxide from the air. In essence you can invest, through Natural Capital, in projects that offset your annual greenhouse gas emissions.

176. The Port of Portland

Portland, OR

www.portofportland.com

Joined the Registry on 4/30/2008

The Port of Portland is a regional government encompassing Clackamas, Multnomah and Washington counties in Oregon. It is directed by a nine-member commission, appointed by the governor and confirmed by the Oregon Senate. The Port of Portland owns four marine terminals and four commercial and industrial parks in the Portland area. The Port currently owns four airports, Portland International, Hillsboro, Troutdale and Mulino.

177. Lexington Medical Center

West Columbia, SC

www.lexmed.com

Joined the Registry on 4/30/2008

Located in one of South Carolina's fastest growing communities, Lexington Medical Center is a 346-bed metropolitan medical complex that anchors a comprehensive, county-wide health care network. That network includes six community medical centers at strategic locations throughout Lexington County, the largest extended care facility in the state, an occupational health center and affiliated physician practices. Lexington Medical Center is creating a system of healthcare in which an environmentally aware and engaged health care community is dedicated to the health of its community.

178. Minnesota Department of Natural Resource

St. Paul, MN

www.dnr.state.mn.us

Joined the Registry on 4/30/2008

Minnesota Department of Natural Resources mission is to work with citizens to conserve and manage the state's natural resources, to provide outdoor recreation opportunities, and to provide for commercial uses of natural resources in a way that creates a sustainable quality of life.

180. Terra Industries Inc

Claremore, OK

www.terraindustries.com

Joined the Registry on 4/30/2008

Terra manufactures and distributes nitrogen-based products for agricultural and industrial markets. Including merchant ammonia and products upgraded from ammonia, Terra has the capacity to annually produce about seven million tons of nitrogen-based products per year.

181. 3-Form

Salt Lake City, UT

www.3-form.com

Joined the Registry on 4/30/2008

In 2001 operations expert Talley Goodson joined his father, inventor Ray Goodson to launch 3form. Ray had acquired his 5th patent for "Resin Encapsulation Technology" and was now developing an environmentally friendly resin as its primary component. Recognizing a fundamental need in design and construction, Talley grew determined to build on his father's discovery by cultivating the first customer centric resin product offering high level aesthetics without ever sacrificing safety, affordability or environmental responsibility.

182. Saint Louis Science Center

St. Louis, MO

www.slsc.org

Joined the Registry on 4/30/2008

The Saint Louis Science Center's mission is to stimulate interest in and understanding of science and technology throughout the community. Over one million people a year are served by the Science's Centers broad range interactive exhibits, programs, films, activities, workshops, and classes, based in a 18-acre campus and 800,000 square feet of facilities. With its annual visitation and scope of program, the Saint Louis Science Center is consistently ranked among the top five science museums in the U.S.

183. The Port of Seattle

Seattle, WA

www.portseattle.org

Joined the Registry on 4/30/2008

The Port of Seattle plays a key role in bringing international trade, transportation and travel to the Pacific Northwest, and supports industries as diverse as tourism and commercial fishing. The Port is also a key builder of road and rail infrastructure, partnering with other agencies to improve freight traffic from Tacoma to Everett.

The Port owns and operates Seattle-Tacoma International Airport - the nation's 18th busiest - handling more than 31 million passengers in 2007. The Port's passenger cruise terminals at Pier

66 and Terminal 30 handled 190 ship calls and nearly 755,000 passengers during the 2007 season.

184. Groom Energy

Salem, MA

www.groomenergy.com

Joined the Registry on 04/30/2008

Groom Energy initial focus with every customer is to provide a thorough review of their facilities and deliver a summary of where energy savings opportunities for energy efficiency, commodity leverage or renewable implementation exist and their resulting climate impact. After this initial overview, Groom Energy completes an analysis that matches the opportunities with a specific set of applications and the economic returns for each. This ensures that customers make informed decisions and prioritize their efforts appropriately.

185. Tetra Tech EM, Inc

Pasadena, CA

www.tetrattech.com

Joined the Registry on 4/30/2008

Tetra Tech provides responsible resource management and sustainable infrastructure services that encompass the full life cycle of solutions. Wenck is an employee-owned Minnesota corporation. Founded by Norm Wenck in 1985, we have grown to over 100 engineers, scientists, and support staff at six offices in Minnesota and one office in North Dakota. Wenck's mission is to deliver strategic engineering and environmental solutions with unmatched service. We strive to delight our clients by being responsive, reliable and proactive, thereby adding the most value possible to your business or organization.

187. Sacramento Municipal Utility District

Sacramento, CA

www.smud.org

Joined the Registry on 4/30/2008

The Sacramento Municipal Utility District was founded with the idea that providing electric power to Sacramento was a job best done by a public utility overseen by an elected board of directors. For 60 years, we've done just that, providing Sacramento County (and a small part of Placer County) with a reliable source of electricity at competitive rates that are consistently lower than investor-owned utilities in the state. As the sixth largest publicly owned utility in the country in terms of customers served, our innovative energy programs are known throughout the state, nation and world. SMUD's purpose is to provide solutions for meeting our customers' electrical energy needs. Our vision is to be a leader in customer satisfaction and a positive

force in promoting community benefits.

188. Longview Fibre Paper and Packaging, Inc

Longview, WA

www.longviewfibre.com

Joined the Registry on 4/30/2008

Longview Fibre Paper and Packaging, Inc. manufactures specialty paper and containers. 240. California Climate Action Registry

Los Angeles, CA

www.climateregistry.org

Joined the Registry on 5/1/2008

The California Climate Action Registry is a non-profit public organization started by the state of California to serve as a voluntary greenhouse gas registry to encourage and protect early actions to reduce greenhouse gas emissions. The Registry assists organizations to calculate, verify, and publicly report their greenhouse gas emissions. Over 300 leading companies, cities, government agencies, environmental organizations, educational institutions, and non-profits measure publicly report their emissions through the Registry.

241. Orange County Sanitation District

Fountain Valley, CA

www.ocsd.com

Joined the Registry on 5/1/2008

The Orange County Sanitation District operates the third largest wastewater agency west of the Mississippi River. For over 50 years, we have safely collected, treated and disposed of and or reclaimed the wastewater generated by 2.5 million people living and working in central and northwestern Orange County. Each day we treat approximately 250 million gallons of wastewater enough water to fill Anaheim stadium nearly three times each day. About 80 percent of the wastewater comes from homes – sinks, toilets, showers, laundry, and dishwashers. The rest comes from businesses – retail stores, restaurants, manufactures, hotels, offices, and other industries.

242. University of California, San Diego

La Jolla, CA
