

# Friends of The Climate Registry

The Climate Registry sets consistent and transparent standards for the calculation, verification, and public reporting of greenhouse gas emissions throughout North America in a single unified registry.

## What is a Friend of The Registry?

A Friend is an organization that is not reporting its emissions to The Registry but would like to support the goals of the organization. It is intended for business associations, coalitions, and industry groups that primarily represent organizations, not individuals, who are interested in The Registry's work and programs.

## Friends' Role

Friends of The Registry actively uphold and endorse The Climate Registry's mission while participating in many of its events and activities. Associations also convey information about The Registry to its members.

## Contribution Information

Friends agree to pay an annual Supporter fee of \$600 to The Registry. In return for this fee, Friends receive:

- Recognition as a Friend of The Registry on our website
- Invitations and access to Reporter & Friends Only Events
- Invitations and access to Reporter & Friends Only conference calls
- Reporter discount applicable for one person at Registry events
- News and information provided exclusively to both Reporters and Friends
