

The Climate Registry

Guide to using the Climate Registered™ Logo

This guide provides instructions for the use of the Climate Registered™ logo, which recognizes the achievement of measuring and verifying greenhouse gas (GHG) emissions. The Climate Registry strictly requires that only approved parties, as identified in this guide, use the Climate Registered™ logo, and that they use it in accordance with the guidelines.

Climate Registered™

The following guidelines apply for the use of the Climate Registered™ logo:

1. The logo may only be used by Members who have achieved the Climate Registered™ status.
2. The logo should always appear in the original, unaltered format.
3. The logo must never be used to disparage The Climate Registry or its programs, Directors, Members or verification bodies.
4. Members are responsible for their own use of the Climate Registered™ logo.

The Climate Registry actively monitors use of its logo and will reserve the right to take action against parties that do not adhere to its guidelines.

The Climate Registered™ logo may be resized as long as the minimum size requirements are observed and proportions are maintained. For legibility in print, the logo should not be smaller than 3/4" wide. On screen, they must be large enough for the elements to be distinguished and the words to be legible. A space of 1/3 the height of the graphics is required to surround the logo at all times. No other symbol, mark, graphical element or words are allowed to appear as part of the logos.

Who may use the logo:

Only Members who have achieved Climate Registered™ status as confirmed by The Registry have inherent permission to use the Climate Registered™ logo. They may use the logo for 12 months from when they have achieved their Climate Registered™ status. To retain the use of the Climate Registered™ logo, they must third-party verify and report their inventory to The Registry i.e., achieve Climate Registered™ status on an annual basis.

Members are welcome and encouraged to use the logo on their marketing materials and products when referring to their Climate Registered™ status.

Please note, Members under Basic Membership and Members who have not achieved Climate Registered™ status may not use the Climate Registered™ logo.
